Vitamin H (Biotin), (50µg)

Vitamin K2, (50µg)

Excipients: Natural Raspberry Flavour, Maltodextrins, mu-flow organic, sucrose esters of fatty acids.

PRODUCT SHEET

Features and benefits.

7 Benefits from Marine Collagen

1. Improves Skin, Hair and Nails – Increasing type 1 collagen levels can help your skin look firmer, increase smoothness, and help your skin cells keep renewing and repairing normally. Clinical trials have shown patients who supplement with marine collagen have a decrease in wrinkles and improved skin hydration and firmness.
2. Builds Bone Strength – Marine collagen peptides help the absorption of calcium and other minerals that are essential for bone strength.
3. Stabilizes Blood Sugar – supplementing with marine collagen, which contains high amounts of glycine, may help balance blood sugar levels, which is especially important for diabetics.
4. Boosts Metabolism – a boost in collagen may help improve metabolism by adding lean muscle mass to your frame and helping with the conversion of essential nutrients.
5. Superior Protein Source for Weight Management – is a pure protein source that does not contain any carbs, sugar or fat. Daily intake of marine collagen may help to suppress appetite by keeping you feeling full longer and thus can help promote weight loss.
6. Brain Health – Glycine makes up roughly 20% of the amino acids in collagen. Some of the glycine benefits range from improving sleep to having inhibitory functions that take action against excessive excitation in the brain. This allows your mind to calm down and focus.
7. Thyroid Boost – Collagen can help boost your thyroid hormone levels by simply balancing the other proteins in your body.

Multi-Strain PROBLIFE Parabiotic Blend

In ProBLife Collagen our experts have used a symbiotic blend of parabiotics (heat-treated probiotics) to maximise product stability and safety.

There are 4 Billion Tyndallized probiotics per sachet. The multi-strain formulation contains therapeutic doses of

Lactobacillus Rhamnosus Tyndallized (2 Bn)*

Lactobacillus Plantarum Tyndallized (1 Bn)*

Streptococcus Thermophilus Tyndallized (1 Bn)*

These strains have been selected to collectively help balance the gut for improved digestive efficiency, digestive comfort, enhanced immunity and reduced inflammation. In time, the parabiotic influence on the gut can also improve the microbiome and support improved digestive uptake of the other ingredients in PROBLIFE Collagen.

PRODUCT SHEET

Directions for use

Take 1-2 sachets per day. Ideally in the evening with or after your meal.

Mix thoroughly with 100ml to 250ml of room temperature water until fully dissolved.

Shelf life and handling

18 months of shelf life.

Store in a cool and dry place up to 25°C and humidity up to 60%.

Packaging

30x 7g Sachet: Foil 60x130mm, printed in 4 colours with gold effect.

3x Inner Box: Natural coloured carton board with foil printing, each inner box contains 10x 7g sachet

1x Outer Box: Each red carton box with gold effect printing contains 3x inner boxes.
